TEN TOWING PERFORMANCE TIPS

1. Always Tow Trailer Level: proper hitch height is essential
2. Recommended Tongue Weight: 7-10% of GVWR
3. Do Not Overload: stay within manufacturers GVWR
4. Lock Coupler: always use Safety Pin & Chain
5. Secure Load: equally distribute weight
6. Safety Cables & Lighting: assure connection to tow vehicle
7. Nuts & Bolts Tightened: lug nuts, ramps, misc. fasteners
8. Tire Inflation: follow proper tire PSI recommendations
9. Braking Systems: assure they are working properly
10. Perform any routine maintenance required

IT PAYS TO BE SAFE!

At Eagle America, Inc., we have made a commitment to manufacture only quality trailers. Along with promising to remain conscientious of what is most important to you, safety and good value.

Our relentless pursuit of excellence, has resulted in proven performance and customer satisfaction.

We can assure you years of trouble-free trailering, and give you real pride in ownership.

Eagle America, Inc., offers a wide variety of trailer makes and models. For more information on these and other products please visit us on the web @ eagleamericainc.com or contact a dealer nearest you.
